## Government Official Opens Recreation Centre

Official opening of the Coleman Recreation room and library was made on Saturday afternoon when over forty persons saw L. R. Woods, Supervisor of Athletics, representing the Department of the Provincial Secretary, present Deputy Mayor John Holyk with an engraved plaque.

The plaque indicated that the fine addition to the town had been made possible through the co-operation of the residents of East Coleman, Grafton Town, Willow Drive and Carbondale pooling their recreational grants with that of the town of Coleman to have enough money to build the cinder block addition to Coleman arena. Some of the money was also used to modernize the arena coffee counters.

Master of ceremonies for the opening was Councilman Joe Hanrahan. William Kovach, MLA, the first speaker, extended congratulations to the people of Coleman and district for having spent their grants so wisely.

He also congratulated the contractors for a fine job. Mr. Kovach stated now that the Pass has fine recreational centres spread throughout the area, consideration should be given to the hiring of a recreational director so that full advantage could be had of the facilities.

Ed Churla, representing East Coleman and the ID 10, spoke briefly stating that he was happy that the recreational grants had been spent on the right cause and hoped that more grants would be available.

Former Councilman George Jenkins and a former president of the Coleman Sports Association, gave an interesting talk outlining the history of the Coleman Arena to the present day.

Ex-mayor John Ramsay congratulated those who had worked hard for the erection of the first stages of what he termed would eventually be the Coleman Civic Centre. He gave some credit to six former councilmen, whom he said had

worked diligently for the project. Mr. Wood was then called upon to present Deputy Mayor Holyk with the engraved plaque.

Presenting the gift, Mr. Wood stated that many communities could well follow the fine example set by Coleman. He indicated that much hard work had gone into getting the building and pointed out that this work was not over yet, if full advantage was to be had of the building and its facilities. He stated that the Department is presently looking into making available a recreational consultant for Southern Alberta which would be a boon to this area. He suggested that the next thing that Coleman should look into is the forthcoming Centennial event, when more money would be available to communities, and Coleman could take advantage of this to enlarge their start on a Community Centre.

In accepting the award, Deputy Mayor Holyk expressed his thanks to the government for the grant and to the people of Coleman and district whose joint co-operation made the project possible. Chairman Joe Hanrahan then closed the occasion by expressing thanks to contractor Orazio Celli, who donated a television set for the recreation room.

He also thanked the Coleman Board of Trade who donated \$150.00 over to the Recreation committee to use for material goods.

Thanks was also extended to Mrs. Helen Nedd for convening a lunch for the official opening of the Recreation Room and Library.

A tour of the library, recreation rooms and new coffee counter concluded the event, with free coffee and doughnuts being served to all.

## Highway Programs For South Are Announced

William Kovach, MLA, received word from Minister of Highways Gordon Taylor on Monday, April 27th, advising that the Department of Highways would include grading, grade widening and applying a stabilized gravel base course to 7.63 miles of No. 3 highway west of Brockton to the Pincher Creek Station.

According to Mr. Taylor's letter tenders will be called for on May 2nd and will be opened on May 13th with work to commence immediately after.

The Department has allotted a considerable amount of work for this area this year as the program so far includes the road construction at Crows Nest Lake, an over-pass over the railway tracks west of the lakes, a concrete slab bridge over Glacier Creek, an over- or under-pass at Munnell's crossing just east of Pincher, as well as the 7.63 miles of roadway from Brockton to Pincher.

## Spring Time In The Rockies

Spring time in the "Rockies" is indeed a delayed issue here this year. The occasional snow storm and rain has greatly hampered our usual beautiful spring season. Nevertheless, various never-fail signs of Nature give a promise of spring being just around the corner. Crocuses, pussy willows and green shoots of grass are emerging here and there.

Gary Clauson, the resides at Crows Nest Lake, reports seeing 2 brown bears emerge from their winter hibernation, and several have reported seeing robins and bluebirds.

The closer you are to a person, the more tact and courtesy you need.

Across Canada in cities, towns and villages, the sign of the 'Red Shield' has become a symbol of service.

To men and women in all walks of life, this 'Shield of Service' speaks of dedication - a Christian organization dedicated to alleviate the entanglement and suffering of thousands of people. This part of the Christian Church, known as The Salvation Army, is so acceptably identified by its Red Shield.

This Shield is a sign of hope for the distressed - for those held by the chains of addiction in many forms.

May is known as Red Shield month and The Salvation Army needs our support as it conducts its Annual Campaign for funds. Let us be enthusiastic in our giving.

## Plans Underway for \$600,000 Developmt. At Frank

The Crows Nest Pass Chamber of Commerce executive today unanimously approved the selection of a \$600,000 development program for the mineral springs at Frank, Alberta, as the 1967 Centennial Project.

This development, overlooking the famous Frank Slide, consists of an indoor Olympic size swimming pool, diving pool, hot mineral water pool, restaurant and coffee shop as the main development with the surrounding 35 acres to be finished as a park and picnic area.

It is felt such an ambitious project could be a major tourist attraction for Southern Alberta, and will as well provide needed year-round recreational swimming facilities for the citizens and particularly the youth of the Pass.

From the turn of the century until the early 1920's the therapeutic powers of this spring brought people from all Alberta. At that time patrons stayed at the Old Rocky Mountain Sulphur Spring Hotel, now the site of the Turtle Mountain Hotel and Play-ground.

Plans are underway to seek Provincial and Federal Government approval, the support of the Lethbridge Chamber of Commerce and Southern Alberta Tourist Association, and most important, the full support of all the citizens of the Crows Nest Pass.

The development is intended to be administered as a community project, administered by a local board of directors, with profits to be used for developing worthwhile community projects such as parks, mining museums, skiing facilities and university scholarships.

**About Mothers**

When Mother's Day rolls around, there will be a burst of criticism about the way it has been "commercialized", but the criticism will, as usual, be narrow and mean and will have no effect at all. Those who can afford to do so, will, I hope, lavish expensive gifts on Mother; and those with less in the way of worldly goods will make sure she understands that the sentiment behind the gift is indeed plentiful.

One thing missing this Mother's Day, I hope, will be the blabber about "Momism" that was so popular five or ten years ago when everybody was busy planning everything on an attachment to her apron string.

Perhaps all Mothers are not angels. Neither are all poor men honest, or all rich men crooked. On the average, heroes do not have feet of clay, and it is possible that some dark clouds are without a silver lining. The point remains that if special days are to be set aside to honor anyone, there is none more deserving than Mother.

Mother's Day is a good idea. Especially in our country, where we still feel that the family is the heart and core of society. For there is no doubt that the Mother is the heart of the family. No man, or not many men, could do the million and one things a Mother does and retain sanity. Imagine starting off each day hearing young voices asking "Mom ... did you iron a blouse for me? Mom, have I clean slim-jims? Mom ... ?"

So when Mother's Day rolls around don't listen to the cynics. Go ahead and commercialize the very heck out of it! It will be the best money you ever spent!

Application forms must be filled in on the morning of the road-e-o.

The winner of the road-e-o in the Crows Nest Pass will compete in the provincial finals to be held in Grand Prairie and a Jaycee member will accompany the contestant as a host. The winner at Grande Prairie proceeds to Toronto, Ont., to compete in the Dominion finals.

Last year's Dominion winner was a teen-age girl. Winner of this final event will be presented with a \$1200 educational bursary. The provincial winners are sponsored to the Dominion finals by the Esso Gas Co.

Crows Nest Pass teen-agers who are planning on entering the road-e-o are advised to study and familiarize themselves with all the rules in the driver's manual. Tests in the local event will last 25 minutes for each driver.
